

Vauxhall Trade Club C1 5W-30

Fully synthetic low SAPS engine oil

Description:

Vauxhall Trade Club C1 5W-30 is a fully synthetic multi grade engine oil designed for use in light duty diesel and petrol engines found in many passenger cars and vans. It is suitable for use in both turbocharged and normally aspirated engines and provides fuel saving benefits compared with more traditional lubricants. Vauxhall Trade Club C1 5W-30 is designed for use in vehicles fitted with exhaust after treatment systems where it's very low SAPS (sulphated ash, phosphorus and sulphur) levels ensure the correct operation of devices such as diesel particulate filters and catalytic converters.

Features & Benefits:

- Fuel efficient multi grade
- Effective environmental protection
- Long drain intervals
- Excellent low temperature fluidity
- Very high standards of engine cleanliness

Applications:

Vauxhall Trade Club C1 5W-30 is recommended for many of the latest diesel and petrol engines, including turbocharged, in passenger cars and light commercial vehicles. Typical manufacturers include Mazda, Jaguar Land Rover and Toyota.

Specifications & Typical Test Data:

Issuing Body	Specification	Test Description	Typical Result
ACEA	C1/C2	Kinematic Viscosity @ 100°C (cSt)	9.84
Ford	WSS-M2C934-B	Kinematic Viscosity @ 40°C (cSt)	53.4
STJLR	.03.5005	Viscosity Index	173
		Flash Point COC (°C)	232
		Sulphated Ash (% wt)	0.5
		Pour Point (°C)	-39

Health & Safety:

Please refer to the relevant health and safety data sheet.
