

Vauxhall Trade Club ATF FSDCT

Fully synthetic dual clutch transmission fluid

Description:

Vauxhall Trade Club ATF FSDCT is a fully synthetic transmission fluid specifically designed for use in dual clutch transmissions. It is a blend of a premium dual clutch additive package with top quality synthetic base oils which combine to produce a lubricant with a wide range of optimised characteristics. These include outstanding frictional durability for improved gear changes over extended periods and excellent load carrying properties for longer transmission life.

Features & Benefits:

- Superior anti-judder performance
- Outstanding anti-wear properties
- Highly shear stable
- Excellent elastomer compatibility
- High levels of thermal & oxidative stability
- Excellent low temperature fluidity

Specifications & Typical Test Data:

Specifications	Test Description	Typical Result
ATF, VW G 052 182	Density @ 20°C	0.845 g/cm ³
Special transmission fluid, BMW DCTF-1	Viscosity @ 100°C	7.6 cSt
	Viscosity @ 40°C	36 cSt
	Phosphorus	0.04%
	Colour	Brown
	Pour Point	-51°C

Health & Safety:

Please refer to the relevant health and safety data sheet.
