

Vauxhall Trade Club ATF SSDX 3

Semi synthetic automatic transmission fluid

Description:

Trade Club ATF SSDX 3 is a multi-purpose automatic transmission fluid for commercial and passenger car gearboxes meeting a very wide range of specifications. It is manufactured from premium quality base oils with specially selected additives and friction modifiers to produce a lubricant with outstanding durability. It demonstrates excellent frictional stability and offers extended fluid life even when under the most severe conditions.

Features & Benefits:

- Long service life
- Can be used as a power steering fluid
- Excellent protection against wear
- Low foaming tendencies
- Compatible with elastomers and other sealing materials
- High thermal stability

Applications:

Vauxhall Trade Club ATF SSDX 3 is recommended for automatic transmissions and power steering units in cars, vans, trucks, buses, agricultural and industrial machines where the following specifications are required.

Specifications & Typical Test Data:
