

Vauxhall Trade Club M4 80W-90

Mineral oil based gear oil meeting API GL-4

Description:

Trade Club 80W-90 M4 is an extreme pressure gear oil meeting the API performance level GL-4. It is manufactured from high quality base oils and high levels of extreme pressure (EP) additives to provide a lubricant with outstanding anti wear protection. It is designed to cope with the increasing demands of modern motoring conditions, which include high shock load, high torque and high speed service conditions.

Features & Benefits:

- Excellent oxidation stability
- Good low and high temperature performance
- Guarantees the correct function of synchromesh gearboxes
- Good protection against rust and corrosion
- High level of wear protection

Applications:

Trade Club 80W-90 M4 is suitable for many manual gearboxes fitted to automotive, commercial and off-highway vehicles.

Specifications & Typical Test Data:

Specifications	Test Description	Typical Result
API GL-4	Density @ 20°C	0.875 g/cm ³
API GL-3	Viscosity @ 100°C	14.0 cSt
Ford SQ-M2C9008-A	Viscosity @ 40°C	132 cSt
MB 235.1	Phosphorus	0.01%
MIL 2105	Colour	Brown
	Pour Point	-30 °C

Health & Safety:
