

Vauxhall Trade Club SS 75W-90

Fully synthetic gear oil meeting API GL-5

Description:

Trade Club 75W-90 SS is an extreme pressure, semi synthetic, multigrade gear oil meeting the API performance level GL-5. It is manufactured from high quality base stocks which have a high viscosity index and a combination of mineral and synthetic base oils and extreme pressure (EP) additives to provide a lubricant with outstanding anti wear protection. Efficient low temperature gear change and the high-speed protection afforded by this grade make it an ideal choice when problems have been encountered with the use of more conventional gear oils.

Features & Benefits:

- Excellent oxidation stability and resistance to thermal breakdown
- Very high levels of wear protection
- Smoother gear change

Applications:

Trade Club 75W-90 SS is recommended for highly stressed manual gearboxes in cars, vans, trucks, buses, agricultural, construction and industrial equipment.

Specifications & Typical Test Data:

Specifications	Test Description	Typical Result
API GL-5	Density @ 20°C	0.853 g/cm ³
Ford M2C197-A	Viscosity @ 100°C	15.0 cSt
MB 235.0	Viscosity @ 40°C	95 cSt
MIL 2105D	Phosphorus	0.04%
	Colour	Light Straw
	Pour Point	-36 °C

Health & Safety:
