# DON'T LET BORDERLINE WRITE-OFFS COST YOU REPAIR WORK

**THE DISTRIGO TOTAL LOSS AVOIDANCE PROGRAMME HELPS KEEP MORE VEHICLES REPAIRABLE.**

## TURN NEAR WRITE-OFFS INTO REPAIR JOBS

Every day, vehicles are written off because repair costs marginally exceed the vehicle's pre-accident value. The Distrigo Total Loss Avoidance (TLA) Programme helps make those borderline repairs financially viable, allowing more vehicles to be safely repaired instead of written off.

By combining Stellantis-funded support on Genuine Parts with the cost-effective Eurorepar Collision Range where appropriate, we can help reduce repair costs without compromising quality or safety. The result is good news for customers, and more work for you.

## DISCOVER THE EUROREPAR COLLISION RANGE

Our Eurorepar Collision Range has recently expanded with new bumpers, grilles, wings and mirror caps, bringing the range to 290 references. Together, the range now covers thousands of vehicle applications, giving Bodyshops even more opportunities to reduce repair costs and avoid unnecessary write-offs.

- Competitively priced to reduce repair costs
- 100s of references covering 1000s of passenger cars and commercial vehicles over five years old
- Fit exactly as the original parts
- Engineered to EU safety specifications
- Backed by a 2-year warranty

With broader vehicle coverage across the UK car parc, the expanded Eurorepar Collision Range gives Bodyshops even more opportunities to deliver quality repairs at a competitive cost.

## HOW DOES TLA WORK?

There are two ways the Total Loss Avoidance Programme can help save a borderline repair:

### PROACTIVE

Sign up to ACE (Automated Crash Estimates) and our TLA team will automatically review and contact you with Total Loss Avoidance opportunities.

### REACTIVE

If you already have borderline vehicle, you believe could be saved, contact the TLA team and we'll review it for opportunities to help bring the repair back within budget.

## GET STARTED TODAY

Speak to the **TLA team** on **0800 208 8948** or email **tlauk@stellantis.com** to discuss potential support.

To make the process automatic, sign up to ACE (Automated Crash Estimates) through your local Distrigo Distributor.

# GENUINE QUALITY. SMARTER VALUE.

**OEM-QUALITY PARTS WITH  
THE SAME WARRANTY AS NEW,  
AT A LOWER COST.**

**SUSTAINera** is Stellantis' range of over 10,000 genuine parts recovered from existing vehicles. Depending on their condition, parts are remanufactured, repaired, reused or recycled to OEM standards by Stellantis, delivering the same quality, reliability and warranty as new, while offering a more cost-effective solution for many repairs.

## THE 4 Rs

### Remanufacture

Parts are stripped, inspected, rebuilt and tested to OEM specification for like-new performance.

### Repair

Components are professionally restored to their original performance and quality standards.

### Reuse

Carefully selected genuine parts are inspected and prepared to be used again with minimal intervention.

### Recycle

Materials are recovered and recycled, helping conserve valuable resources and support a more circular approach to vehicle repair.

### A smarter choice for your workshop

SUSTAINera gives you another genuine repair option for the right job. You get OEM-quality parts, the same warranty as new and a lower purchase cost, helping you keep repair costs competitive while supporting more sustainable workshop operations. It's a winning formula: Genuine parts for less.
