SAVE MORE BORDERLINE REPAIRS WITH **THE DISTRIGO TOTAL LOSS AVOIDANCE (TLA) PROGRAMME.**

Every year, too many vehicles are written off simply because repair costs slightly exceed their pre-accident value.

Customers lose their cars, repairers miss out on jobs, and usable materials go to waste. At Distrigo, part of Stellantis, we're working with repairers to turn those borderline write-offs into safe, profitable repairs.

We do this through Stellantis-funded support on genuine OE parts and our Eurorepar Collision Range, designed to lower repair costs without compromising safety.

FEWER WRITE-OFFS. MORE REPAIRS. HAPPIER CUSTOMERS.

LET'S SAVE MORE BORDERLINE VEHICLES TOGETHER.

THERE ARE TWO DIFFERENT WAYS TO SAVE A BORDERLINE VEHICLE:

The TLA Programme is a win-win. Extra work that wouldn't otherwise exist and customers keeping their vehicles safely on the road, all while supporting a more sustainable future for the repair industry.

REACTIVE:

If you believe a borderline repair could be saved with additional parts support, contact the TLA team directly. We'll review the case with you and discuss how Stellantis-funded OE pricing or Eurorepar alternatives can bring the job back into the viable zone.

TLA team

potential support.

PROACTIVE:

If you're signed up to ACE (Automated Crash Estimates), our TLA team will automatically contact you when an Audatex estimate crosses the borderline threshold, giving you the opportunity to quote the repair and keep the vehicle on the road.
